

Never accept the request from SNS “Helping me to receive a package”

Being a receiver of product = Assuming a role of **CRIME!**

- The unintentional cases of supporting crime scheme of syndicates, by receiving and accepting their offers such as “Helping me to receive a package” via SNS or BBS, have actually arisen recently.
- There also have been several students and technical interns from overseas who accept these requests without much thought.
If you actually receive an offer such as “there’s an easy part-time job with good pay”, please DENY and stay away from it.
