## Watch out for 'Yami Baito' !!

What are 'yami baito'?

Yami baito (dark part-time jobs) refers to underground or illicit work, often involving activities outside the bounds of legal employment.

Here are some things to watch out for when job searching:

- More often than not the recruiting will occur through social media, internet message boards, and job sites.
- Some people start because they are invited by their seniors or friends.

There is no job that will make you money instantly! Be wary and make sure you aren't applying for a shady part-time job!

**If you suspect something is wrong, please discuss it with your friends, family, or the police!**
