Kamo Edition -**

'The Dream Class Paving the Way to a Bright Future - Kamo Edition' is a collaborative effort between the Shizuoka Prefectural Board of Education and the local municipal Boards of Education. This program offers junior high school students the opportunity to explore the rich nature, culture, people, and industries of the Kamo region while reflecting on their own future and that of their community.

In 2023, 24 junior high school students from 1 city and 5 towns in the Kamo region participated in an event that was held over 2 days from August 3rd to 4th. Through lectures, fieldwork, and group work, we learned about the unique culture of the Kamo region.
